A World Bank Group Flagship Report

**16TH EDITION** 

## Economy Profile of Afghanistan

Doing Business 2019 Indicators (in order of appearance in the document)

Starting a business	Procedures, time, cost and paid-in minimum capital to start a limited liability company
Dealing with construction permits	Procedures, time and cost to complete all formalities to build a warehouse and the quality control and safety mechanisms in the construction permitting system
Getting electricity	Procedures, time and cost to get connected to the electrical grid, and the reliability of the electricity supply and the transparency of tariffs
Registering property	Procedures, time and cost to transfer a property and the quality of the land administration system
Getting credit	Movable collateral laws and credit information systems
Protecting minority investors	Minority shareholders' rights in related-party transactions and in corporate governance
Paying taxes	Payments, time, total tax and contribution rate for a firm to comply with all tax regulations as well as post-filing processes
Trading across borders	Time and cost to export the product of comparative advantage and import auto parts
Enforcing contracts	Time and cost to resolve a commercial dispute and the quality of judicial processes
Resolving insolvency	Time, cost, outcome and recovery rate for a commercial insolvency and the strength of the legal framework for insolvency
Labor market regulation	Flexibility in employment regulation and aspects of job quality

### About Doing Business

The *Doing Business* project provides objective measures of business regulations and their enforcement across 190 economies and selected cities at the subnational and regional level.

The *Doing Business* project, launched in 2002, looks at domestic small and medium-size companies and measures the regulations applying to them through their life cycle.

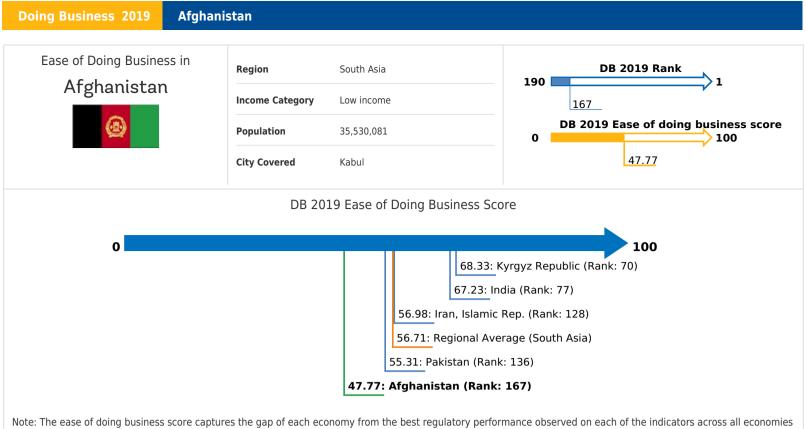

*Doing Business* captures several important dimensions of the regulatory environment as it applies to local firms. It provides quantitative indicators on regulation for starting a business, dealing with construction permits, getting electricity, registering property, getting credit, protecting minority investors, paying taxes, trading across borders, enforcing contracts and resolving insolvency. *Doing Business* also measures features of labor market regulation. Although *Doing Business* does not present rankings of economies on the labor market regulation indicators or include the topic in the aggregate ease of doing business score or ranking on the ease of doing business, it does present the data for these indicators.

By gathering and analyzing comprehensive quantitative data to compare business regulation environments across economies and over time, *Doing Business* encourages economies to compete towards more efficient regulation; offers measurable benchmarks for reform; and serves as a resource for academics, journalists, private sector researchers and others interested in the business climate of each economy.

In addition, *Doing Business* offers detailed subnational reports, which exhaustively cover business regulation and reform in different cities and regions within a nation. These reports provide data on the ease of doing business, rank each location, and recommend reforms to improve performance in each of the indicator areas. Selected cities can compare their business regulations with other cities in the economy or region and with the 190 economies that *Doing Business* has ranked.

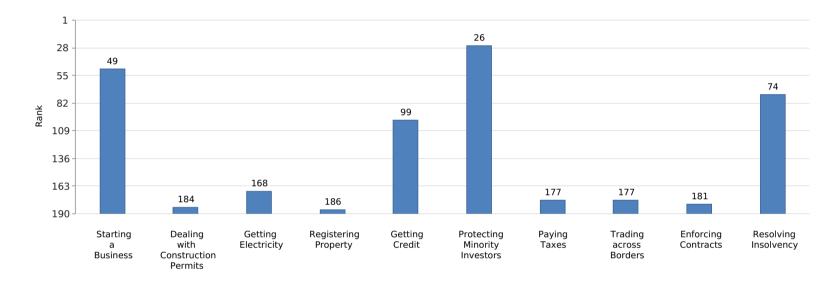

The first *Doing Business* report, published in 2003, covered 5 indicator sets and 133 economies. This year's report covers 11 indicator sets and 190 economies. Most indicator sets refer to a case scenario in the largest business city of each economy, except for 11 economies that have a population of more than 100 million as of 2013 (Bangladesh, Brazil, China, India, Indonesia, Japan, Mexico, Nigeria, Pakistan, the Russian Federation and the United States) where *Doing Business* also collected data for the second largest business city. The data for these 11 economies are a population-weighted average for the 2 largest business cities. The project has benefited from feedback from governments, academics, practitioners and reviewers. The initial goal remains: to provide an objective basis for understanding and improving the regulatory environment for business around the world.

More about Doing Business (PDF, 5MB)

Note: The ease of doing business score captures the gap of each economy from the best regulatory performance observed on each of the indicators across all economies in the *Doing Business* sample since 2005. An economy's ease of doing business score is reflected on a scale from 0 to 100, where 0 represents the lowest and 100 represents the best performance. The ease of doing business ranking ranges from 1 to 190.

### **Rankings on Doing Business topics - Afghanistan**

### **The Starting a Business**

This topic measures the number of procedures, time, cost and paid-in minimum capital requirement for a small- to medium-sized limited liability company to start up and formally operate in each economy's largest business city.

To make the data comparable across 190 economies, *Doing Business* uses a standardized business that is 100% domestically owned, has start-up capital equivalent to 10 times the income per capita, engages in general industrial or commercial activities and employs between 10 and 50 people one month after the commencement of operations, all of whom are domestic nationals. Starting a Business considers two types of local limited liability companies that are identical in all aspects, except that one company is owned by 5 married women and the other by 5 married men. The ranking of economies on the ease of starting a business is determined by sorting their scores for starting a business. These scores are the simple average of the scores for each of the component indicators.

The most recent round of data collection for the project was completed in May 2018. See the methodology for more information.

### What the indicators measure

### Case study assumptions

# Procedures to legally start and formally operate a company (number)

- Preregistration (for example, name verification or reservation, notarization)
- Registration in the economy's largest business city
- Postregistration (for example, social security registration, company seal)
- Obtaining approval from spouse to start a business or to leave the home to register the company
- Obtaining any gender specific document for company registration and operation or national identification card

# Time required to complete each procedure (calendar days)

- Does not include time spent gathering information
- Each procedure starts on a separate day (2 procedures cannot start on the same day)
- Procedures fully completed online are recorded as ½ day
- Procedure is considered completed once final document is received
- No prior contact with officials

# Cost required to complete each procedure (% of income per capita)

- Official costs only, no bribes
- No professional fees unless services required by law or commonly used in practice

# Paid-in minimum capital (% of income per capita)

• Funds deposited in a bank or with third party before registration or up to 3 months after incorporation

To make the data comparable across economies, several assumptions about the business and the procedures are used. It is assumed that any required information is readily available and that the entrepreneur will pay no bribes.

### The business:

- Is a limited liability company (or its legal equivalent). If there is more than one type of limited liability company in the economy, the most common among domestic firms is chosen. Information on the most common form is obtained from incorporation lawyers or the statistical office.

- Operates in the economy's largest business city. For 11 economies the data are also collected for the second largest business city.

The entire office space is approximately 929 square meters (10,000 square feet).
Is 100% domestically owned and has five owners, none of whom is a legal entity; has a start-up capital of 10 times income per capita and has a turnover of at least 100 times income per capita.

- Performs general industrial or commercial activities, such as the production or sale of goods or services to the public. The business does not perform foreign trade activities and does not handle products subject to a special tax regime, for example, liquor or tobacco. It does not use heavily polluting production processes.

- Leases the commercial plant or offices and is not a proprietor of real estate and the amount of the annual lease for the office space is equivalent to the income per capita.

- Does not qualify for investment incentives or any special benefits.

- Has at least 10 and up to 50 employees one month after the commencement of operations, all of whom are domestic nationals.

- Has a company deed that is 10 pages long.

### The owners:

- Have reached the legal age of majority. If there is no legal age of majority, they are assumed to be 30 years old.

- Are sane, competent, in good health and have no criminal record.

- Are married and the marriage is monogamous and registered with the authorities.

- Where the answer differs according to the legal system applicable to the woman or man in question (as may be the case in economies where there is legal plurality), the answer used will be the one that applies to the majority of the population.

## Starting a Business - Afghanistan

## DB 2019 Starting a Business Score

Note: The ranking of economies on the ease of starting a business is determined by sorting their scores for starting a business. These scores are the simple average of the scores for each of the component indicators.

\*This symbol is shown beside procedure numbers that take place simultaneously with the previous procedure.

Note: Online procedures account for 0.5 days in the total time calculation. For economies that have a different procedure list for men and women, the graph shows the time for women. For more information on methodology, see the *Doing Business* website (http://doingbusiness.org/en/methodology). For details on the procedures reflected here, see the summary below.

## Details - Starting a Business in Afghanistan - Procedure, Time and Cost

No.	Procedures	Time to Complete	Associated Costs
Q 1	APPLIES TO WOMEN ONLY: Obtain husband's approval to leave home Agency : Domicile According to Article 122 of the 1977 Afghanistan Civil Law a married woman will not be entitled to alimony if she is going out of the house without permit of the husband or for things that are not allowed.	1 day	No charge
2	<ul> <li>Register the company and obtain Tax Identification Number (TIN)</li> <li>Agency : Afghanistan Central Business Registry (ACBR) under the Ministry of Commerce and Industry</li> <li>The applicant must provide the following documents to register:</li> <li>An application form (available online)</li> <li>Copy of national id (tazkira) or passport of the President and Vice President of the business, and all shareholders, along with their in person presence</li> <li>2 sets of color passport size photographs of the President and Vice President of the business, and all shareholders</li> <li>Articles of Incorporation</li> <li>The office space lease agreement to show proof of address</li> </ul> Specifications of all new businesses and investments are collected by the Afghanistan Central Business Registry (ACBR) office and sent to the Ministry of Justice in Kabul for publication in the Official Gazette. The text is drafted by the ACBR. Businesses can draft their own text if they would like to do so. The Gazette entry will include, at a minimum, the following information: <ul> <li>Name of the company</li> <li>Initial Capital</li> <li>Type of Operation</li> <li>Type of Activity</li> </ul>	3 days	No charge
3	<ul> <li>Pay fees for the business license, license's hard copy and publication of a notice of incorporation</li> <li>Agency : Bank Millie Afghan window at ACBR</li> <li>The Afghanistan Central Business Registry (ACBR) under the Ministry of Commerce and Industry issues a bill to be paid at the window of Bank Millie Afghan (located at the ABCR), for the costs of the business license fee, for printing a hard copy of the license and for the publication fee.</li> </ul>	1 day	AFN 100 (business license fee) + AFN 500 (hard copy of the license) + AFN 2,000 (publication)
4	<b>Obtain the business license</b> <i>Agency</i> : Afghanistan Central Business Registry (ACBR) under the Ministry of Commerce and Industry Once the application is accepted and the business license fee is paid, the business license is obtained from the Afghanistan Central Business Registry (ACBR).	3 days	included in procedure 3
5	<b>File employment contracts with the Ministry of Labor, Social Affairs,</b> <b>Martyrs &amp; Disabled</b> <i>Agency</i> : Ministry of Labor, Social Affairs, Martyrs & Disabled After hiring an employee, the company must submit a copy of the employment contract to the Ministry of Labor, Social Affairs, Martyrs & Disabled, as per art. 16-1 of the Labor Code.	1 day	no charge

♀Applies to women only.➡Takes place simultaneously with previous procedure.

### 🔍 Dealing with Construction Permits

This topic tracks the procedures, time and cost to build a warehouse—including obtaining necessary the licenses and permits, submitting all required notifications, requesting and receiving all necessary inspections and obtaining utility connections. In addition, the Dealing with Construction Permits indicator measures the building quality control index, evaluating the quality of building regulations, the strength of quality control and safety mechanisms, liability and insurance regimes, and professional certification requirements. The most recent round of data collection was completed in May 2018. See the methodology for more information

### What the indicators measure

### **Case study assumptions**

Procedures to legally build a warehouse (number)

- Submitting all relevant documents and obtaining all necessary clearances, licenses, permits and certificates
- Submitting all required notifications and receiving all necessary inspections
- Obtaining utility connections for water and sewerage
- Registering and selling the warehouse after its completion

# Time required to complete each procedure (calendar days)

- Does not include time spent gathering information
- Each procedure starts on a separate day though procedures that can be fully completed online are an exception to this rule
- Procedure is considered completed once final document is received
- No prior contact with officials

# Cost required to complete each procedure (% of income per capita)

• Official costs only, no bribes

### Building quality control index (0-15)

- Quality of building regulations (0-2)
- Quality control before construction (0-1)
- Quality control during construction (0-3)
- Quality control after construction (0-3)
- Liability and insurance regimes (0-2)
- Professional certifications (0-4)

To make the data comparable across economies, several assumptions about the construction company, the warehouse project and the utility connections are used.

#### The construction company (BuildCo):

- Is a limited liability company (or its legal equivalent) and operates in the economy's largest business city. For 11 economies the data are also collected for the second largest business city.

- Is 100% domestically and privately owned; has five owners, none of whom is a legal entity. Has a licensed architect and a licensed engineer, both registered with the local association of architects or engineers. BuildCo is not assumed to have any other employees who are technical or licensed experts, such as geological or topographical experts.

- Owns the land on which the warehouse will be built and will sell the warehouse upon its completion.

#### The warehouse:

Will be used for general storage activities, such as storage of books or stationery.
Will have two stories, both above ground, with a total constructed area of approximately 1,300.6 square meters (14,000 square feet). Each floor will be 3 meters (9 feet, 10 inches) high and will be located on a land plot of approximately 929 square meters (10,000 square feet) that is 100% owned by BuildCo, and the warehouse is valued at 50 times income per capita.

- Will have complete architectural and technical plans prepared by a licensed architect. If preparation of the plans requires such steps as obtaining further documentation or getting prior approvals from external agencies, these are counted as procedures.

- Will take 30 weeks to construct (excluding all delays due to administrative and regulatory requirements).

### The water and sewerage connections:

- Will be 150 meters (492 feet) from the existing water source and sewer tap. If there is no water delivery infrastructure in the economy, a borehole will be dug. If there is no sewerage infrastructure, a septic tank in the smallest size available will be installed or built.

- Will have an average water use of 662 liters (175 gallons) a day and an average wastewater flow of 568 liters (150 gallons) a day. Will have a peak water use of 1,325 liters (350 gallons) a day and a peak wastewater flow of 1,136 liters (300 gallons) a day.

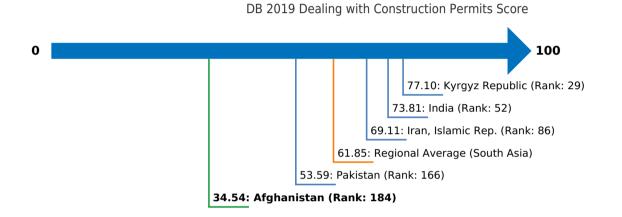

- Will have a constant level of water demand and wastewater flow throughout the year; will be 1 inch in diameter for the water connection and 4 inches in diameter for the sewerage connection.

### **Dealing with Construction Permits - Afghanistan**

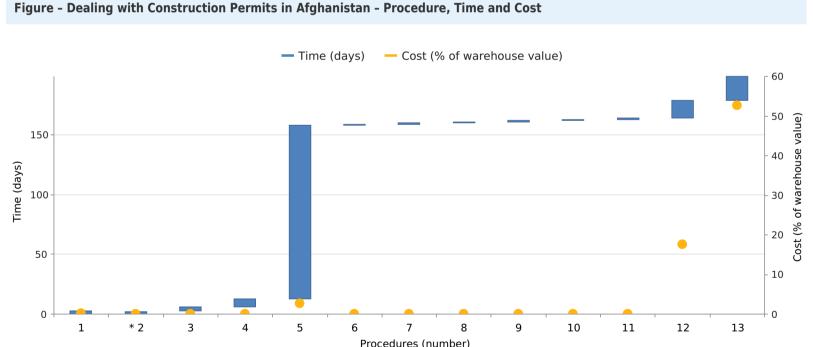

### **Standardized Warehouse**

Estimated value of warehouse	AFN 2,027,210.50			
City Covered		Kabul		
Indicator	Afghanistan	South Asia	OECD high income	Best Regulatory Performance
Procedures (number)	13	15.2	12.7	None in 2017/18
Time (days)	199	165.5	153.1	None in 2017/18
Cost (% of warehouse value)	73.0	13.2	1.5	None in 2017/18
Building quality control index (0-15)	3.0	9.2	11.5	15.0 (3 Economies)

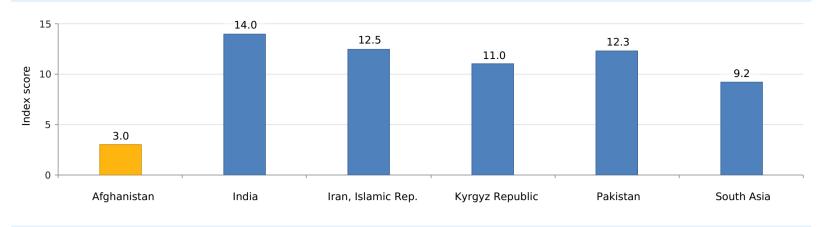

Note: The ranking of economies on the ease of dealing with construction permits is determined by sorting their scores for dealing with construction permits. These scores are the simple average of the scores for each of the component indicators.

\*This symbol is shown beside procedure numbers that take place simultaneously with the previous procedure.

Note: Online procedures account for 0.5 days in the total time calculation. For economies that have a different procedure list for men and women, the graph shows the time for women. For more information on methodology, see the *Doing Business* website (http://doingbusiness.org/en/methodology). For details on the procedures reflected here, see the summary below.

No.	Procedures	Time to Complete	Associated Costs
1	Obtain copy of the land deed Agency : Makhzan of Kabul Collateral Court After decades of conflict, most people have lost their deeds, relying on informal ownership claims to land. In post-conflict Kabul, a copy of the title deed is part of the documentation needed to apply for a building permit. BuildCo must file a written claim to the appeal court of Kabul stating they lost their deed. The claim must contain the property specification, deed number, district number, and number of the court that issued the deed. It takes about a week to obtain a valid copy of the title deed. When the deed is lost, the owner must advertise the case through news paper or radio and then request from the court to issue a duplicate deed. Within 7 10 days the court will issue a scanned copy of the deed without charges.	3 days	AFN 3,000
≠2	Request and receive an inspection from the Municipality's Survey and Master Plan Department for the Sketch of the land plot (Koroki) <i>Agency</i> : Kabul Municipality It is possible to request and receive an inspection from the Municipality's Survey and Master Plan Department for the Sketch of the land plot (Koroki) at the same time as placing a request for a copy of the land deed.	1 day	no charge
3	<b>Obtain the sketch of the land plot</b> <i>Agency</i> : Kabul Municipality	3 days	no charge
4	<b>Obtain zoning approval from Kabul Municipality</b> <i>Agency</i> : Kabul Municipality BuildCo must go to the municipality to check the Kabul Master Plan and to obtain a zoning approval. The master plan is 15 20 years old and has not been recently updated. If everything is in order and BuildCo pays a bribe, it may receive the zoning approval in a couple of days. However, without paying a bribe, approval takes about a week.	7 days	no charge
5	<b>Obtain building permit from Kabul Municipality</b> <i>Agency</i> : Kabul Municipality BuildCo submits a copy of the title deed, the zoning approval, the building design(s), and proof of the employees' qualifications. If the property is inside the Kabul Master Plan, the designs are sent to the Engineering Department and a committee will approve them. BuildCo then pays the building permit fee. The municipality sends approval copies to various municipal departments (e.g. the police). The building permit fee is not standardized - the fees can vary from applicant to applicant.	145 days	USD 750

By paying bribes, BuildCo can obtain a building permit within a month of submitting an application. Without bribes, the application process takes more than one year.

### 6 **Receive random inspection from Municipality**

1 day

no charge

Agency : Kabul Municipality At the beginning of the construction work, an official from the Municipality District Office and the Construction Control Department with the help of the district police will come to the construction site to verify the construction permit.

If the builder has a permit, the company can continue their work; otherwise the project will be stopped and a bribe to both parties would allow the work to continue. Doing Business does not include these types of unofficial payments.

## Details - Dealing with Construction Permits in Afghanistan - Measure of Quality

	Answer	Score
Building quality control index (0-15)		3.0
Quality of building regulations index (0-2)		1.0
How accessible are building laws and regulations in your economy? (0-1)	Available online; Free of charge.	1.0
Which requirements for obtaining a building permit are clearly specified in the building regulations or on any accessible website, brochure or pamphlet? (0-1)	List of required documents; Required preapprovals; Available only on request.	0.0
Quality control before construction index (0-1)		1.0
Which third-party entities are required by law to verify that the building plans are in compliance with existing building regulations? (0-1)	Licensed engineer.	1.0
Quality control during construction index (0-3)		0.0
What types of inspections (if any) are required by law to be carried out during construction? (0-2)	Unscheduled inspections.	0.0
Do legally mandated inspections occur in practice during construction? (0-1)	Mandatory inspections are not always done in practice during construction.	0.0
Quality control after construction index (0-3)		0.0
Is there a final inspection required by law to verify that the building was built in accordance with the approved plans and regulations? (0-2)	Final inspection is not required by law.	0.0
Do legally mandated final inspections occur in practice? (0-1)	Final inspection does not always occur in practice.	0.0
Liability and insurance regimes index (0-2)		1.0
Which parties (if any) are held liable by law for structural flaws or problems in the building once it is in use (Latent Defect Liability or Decennial Liability)? (0-1)	Architect or engineer; Professional in charge of the supervision.	1.0
Which parties (if any) are required by law to obtain an insurance policy to cover possible structural flaws or problems in the building once it is in use (Latent Defect Liability Insurance or Decennial Insurance)? (0-1)	No party is required by law to obtain insurance .	0.0
Professional certifications index (0-4)		0.0

What are the qualification requirements for the professional responsible for verifying that the University degree 0.0

architectural plans or drawings are in compliance with existing building regulations? (0-2)	in architecture or engineering.	
What are the qualification requirements for the professional who supervises the construction on the ground? (0-2)	University degree in engineering, construction or construction management.	0.0

## 두 Getting Electricity

This topic measures the procedures, time and cost required for a business to obtain a permanent electricity connection for a newly constructed warehouse. Additionally, the reliability of supply and transparency of tariffs index measures reliability of supply, transparency of tariffs and the price of electricity. The most recent round of data collection for the project was completed in May 2018. See the methodology for more information.

### What the indicators measure

# **Procedures to obtain an electricity connection** (number)

- Submitting all relevant documents and obtaining all necessary clearances and permits
- Completing all required notifications and receiving all necessary inspections
- Obtaining external installation works and possibly purchasing material for these works
- Concluding any necessary supply contract and obtaining final supply

### Time required to complete each procedure (calendar days)

- Is at least 1 calendar day
- Each procedure starts on a separate day
- Does not include time spent gathering information
- Reflects the time spent in practice, with little follow-up and no prior contact with officials

# Cost required to complete each procedure (% of income per capita)

- Official costs only, no bribes
- Value added tax excluded

# The reliability of supply and transparency of tariffs index (0-8)

- Duration and frequency of power outages (0–3)
- Tools to monitor power outages (0–1)
- Tools to restore power supply (0–1)
- Regulatory monitoring of utilities' performance (0-1)
- Financial deterrents limiting outages (0–1)
- Transparency and accessibility of tariffs (0–1)

### Price of electricity (cents per kilowatt-hour)\*

 Price based on monthly bill for commercial warehouse in case study

\*Note: *Doing Business* measures the price of electricity, but it is not included in the ease of doing business score nor the ranking on the ease of getting electricity.

### Case study assumptions

To make the data comparable across economies, several assumptions about the warehouse, the electricity connection and the monthly consumption are used.

### The warehouse:

- Is owned by a local entrepreneur and is used for storage of goods.
- Is located in the economy's largest business city. For 11 economies the data are also collected for the second largest business city.
- Is located in an area where similar warehouses are typically located and is in an area with no physical constraints. For example, the property is not near a railway.
- Is a new construction and is being connected to electricity for the first time. Has two stories with a total surface area of approximately 1,300.6 square meters
- (14,000 square feet). The plot of land on which it is built is 929 square meters (10,000 square feet).

### The electricity connection:

- Is a permanent one with a three-phase, four-wire Y connection with a subscribed capacity of 140-kilo-volt-ampere (kVA) with a power factor of 1, when 1 kVA = 1 kilowatt (kW).

- Has a length of 150 meters. The connection is to either the low- or medium-voltage distribution network and is either overhead or underground, whichever is more common in the area where the warehouse is located and requires works that involve the crossing of a 10-meter road (such as by excavation or overhead lines) but are all carried out on public land. There is no crossing of other owners' private property because the warehouse has access to a road.

- Does not require work to install the internal wiring of the warehouse. This has already been completed up to and including the customer's service panel or switchboard and the meter base.

### The monthly consumption:

It is assumed that the warehouse operates 30 days a month from 9:00 a.m. to 5:00 p.m. (8 hours a day), with equipment utilized at 80% of capacity on average and that there are no electricity cuts (assumed for simplicity reasons) and the monthly energy consumption is 26,880 kilowatt-hours (kWh); hourly consumption is 112 kWh.
If multiple electricity suppliers exist, the warehouse is served by the cheapest supplier.

- Tariffs effective in January of the current year are used for calculation of the price of electricity for the warehouse. Although January has 31 days, for calculation purposes only 30 days are used.

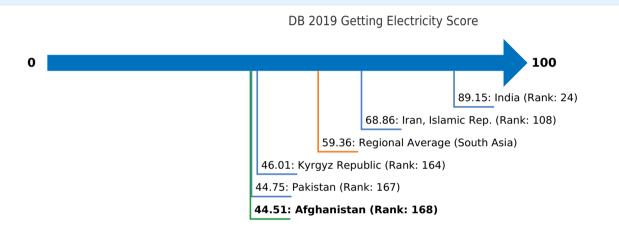

## **Getting Electricity - Afghanistan**

### **Standardized Connection**

Price of electricity (US cents per kWh)	17.6
Name of utility	Kabul Electricity Department, Da Afghanistan Breshna Sherket (DABS)
City Covered	Kabul

Indicator	Afghanistan	South Asia	OECD high income	Best Regulatory Performance
Procedures (number)	6	5.4	4.5	3 (25 Economies)
Time (days)	114	98.3	77.2	18 (3 Economies)
Cost (% of income per capita)	2448.3	1054.7	64.2	0.0 (3 Economies)
Reliability of supply and transparency of tariff index (0-8)	0	2.1	7.5	8.0 (27 Economies)

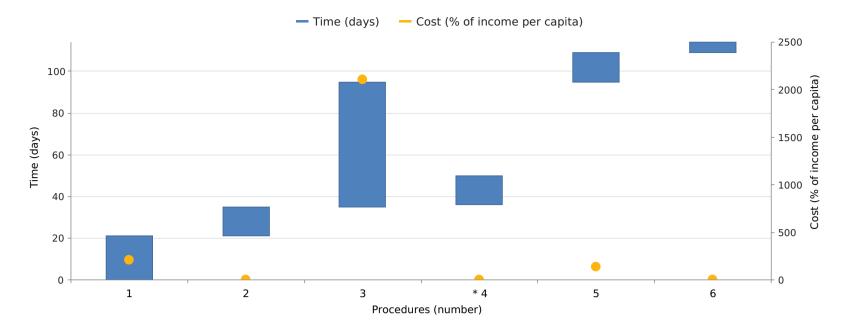

## Figure - Getting Electricity in Afghanistan and comparator economies - Ranking and Score

Note: The ranking of economies on the ease of getting electricity is determined by sorting their scores for getting electricity. These scores are the simple average of the scores for all the component indicators except the price of electricity.

## Details - Getting Electricity in Afghanistan - Procedure, Time and Cost

No.	Procedures	Time to Complete	Associated Costs
1	Submit application to Kabul Electricity Department and await external site inspectionAgency : Da Afghanistan Breshna Sherket (DABS)The customer must submit the formal request to the Kabul electricity department, stating that construction works have started at the site and the estimated completion date. The main purpose of registering with the Kabul electricity department is for them to conduct a site visit to check the feasibility of the project. If capacity is available, then the connection will be granted.Several sections of the Electricity Department are involved in this site inspection and they will provide a time schedule to conduct it. This department conducts site visits in the city on a rotational basis, and give a specific date when the inspection will take place.	21 calendar days	AFN 84,100
2	<b>Receive site inspection by utility and await estimate</b> <i>Agency</i> : Da Afghanistan Breshna Sherket (DABS) The presence of the customer is required for the site inspection. Once this inspection is completed, the customer will have to retrieve the physical letter for the estimated cost from the utility.	14 calendar days	USD 0
3	<b>Purchase transformer and carry out external works</b> <i>Agency</i> : Customer's contractor The customer's contractor will build the substation distribution transformer.	60 calendar days	USD 12,000
₹4	<b>Customer obtains approval of transformer and materials from utility</b> <i>Agency</i> : Da Afghanistan Breshna Sherket (DABS) Customer has to obtain clearance of the distribution transformer and materials from the utility.	14 calendar days	AFN 0
5	Obtain meter from utility, convey to lab for checking and obtain installation permission Agency : Da Afghanistan Breshna Sherket (DABS) The meter is obtained from the utility at this stage. The meter needs to be checked to insure its functionality, and a final meter installation permission is granted at this stage.	14 calendar days	AFN 55,000
6	Receive meter installation by utility and then electricity flow Agency : Da Afghanistan Breshna Sherket (DABS) The utility will request that electricity is turned off so that the meter can be installed. Once the new line connection is completed, the electricity supply will be turned back on, and the transmission line (150 meters) is energized. The, dry switch on the medium side is turned on to check the meter and the transformer. Then the main switch on the Lower Voltage (VT) side is turned on to inspect the meter condition by increasing and decreasing the load for the next two hours. If the system is working fine, then the meter is secured (locked), and the customer is given a written permission to use electricity.	5 calendar days	USD 0

## Details - Getting Electricity in Afghanistan - Measure of Quality

	Answer
Reliability of supply and transparency of tariff index (0-8)	0
Total duration and frequency of outages per customer a year (0-3)	0
System average interruption duration index (SAIDI)	
System average interruption frequency index (SAIFI)	
What is the minimum outage time (in minutes) that the utility considers for the calculation of SAIDI/SAIFI	N/A
Mechanisms for monitoring outages (0-1)	1
Does the distribution utility use automated tools to monitor outages?	Yes
Mechanisms for restoring service (0-1)	0
Does the distribution utility use automated tools to restore service?	No
Regulatory monitoring (0-1)	0
Does a regulator—that is, an entity separate from the utility—monitor the utility's performance on reliability of supply?	No
Financial deterrents aimed at limiting outages (0-1)	0
Does the utility either pay compensation to customers or face fines by the regulator (or both) if outages exceed a certain cap?	No
Communication of tariffs and tariff changes (0-1)	0
Are effective tariffs available online?	No
Link to the website, if available online	n.a
Are customers notified of a change in tariff ahead of the billing cycle?	Yes

### Note:

If the duration and frequency of outages is 100 or less, the economy is eligible to score on the Reliability of supply and transparency of tariff index.

If the duration and frequency of outages is not available, or is over 100, the economy is not eligible to score on the index.

If the minimum outage time considered for SAIDI/SAIFI is over 5 minutes, the economy is not eligible to score on the index.

### Registering Property

This topic examines the steps, time and cost involved in registering property, assuming a standardized case of an entrepreneur who wants to purchase land and a building that is already registered and free of title dispute. In addition, the topic also measures the quality of the land administration system in each economy. The quality of land administration index has five dimensions: reliability of infrastructure, transparency of information, geographic coverage, land dispute resolution, and equal access to property rights. The most recent round of data collection for the project was completed in May 2018. See the methodology for more information.

### What the indicators measure

# Procedures to legally transfer title on immovable property (number)

- Preregistration procedures (for example, checking for liens, notarizing sales agreement, paying property transfer taxes)
- Registration procedures in the economy's largest business city.
- Postregistration procedures (for example, filling title with municipality)

# Time required to complete each procedure (calendar days)

- Does not include time spent gathering information
- Each procedure starts on a separate day though procedures that can be fully completed online are an exception to this rule
- Procedure is considered completed once final document is received
- No prior contact with officials

# Cost required to complete each procedure (% of property value)

- Official costs only (such as administrative fees, duties and taxes).
- Value Added Tax, Capital Gains Tax and illicit payments are excluded

### Quality of land administration index (0-30)

- Reliability of infrastructure index (0-8)
- Transparency of information index (0–6)
- Geographic coverage index (0–8)
- Land dispute resolution index (0–8)
- Equal access to property rights index (-2-0)

### Case study assumptions

To make the data comparable across economies, several assumptions about the parties to the transaction, the property and the procedures are used.

### The parties (buyer and seller):

- Are limited liability companies (or the legal equivalent).
- Are located in the periurban area of the economy's largest business city. For 11 economies the data are also collected for the second largest business city.
- Are 100% domestically and privately owned.
- Have 50 employees each, all of whom are nationals.
- Perform general commercial activities.

### The property (fully owned by the seller):

- Has a value of 50 times income per capita, which equals the sale price.
- Is fully owned by the seller.

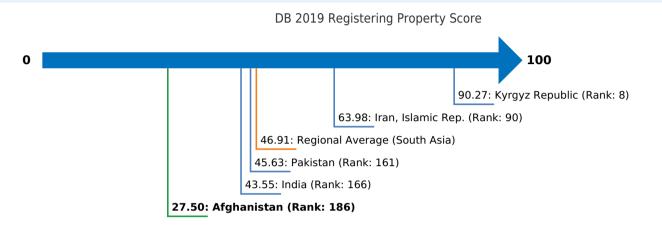

- Has no mortgages attached and has been under the same ownership for the past 10 years.

- Is registered in the land registry or cadastre, or both, and is free of title disputes.
- Is located in a periurban commercial zone, and no rezoning is required.
- Consists of land and a building. The land area is 557.4 square meters (6,000 square feet). A two-story warehouse of 929 square meters (10,000 square feet) is located on the land. The warehouse is 10 years old, is in good condition, has no heating system and complies with all safety standards, building codes and legal requirements. The property, consisting of land and building, will be transferred in its entirety.
- Will not be subject to renovations or additional construction following the purchase.
  Has no trees, natural water sources, natural reserves or historical monuments of any kind.
- Will not be used for special purposes, and no special permits, such as for residential use, industrial plants, waste storage or certain types of agricultural activities, are required.
- Has no occupants, and no other party holds a legal interest in it.

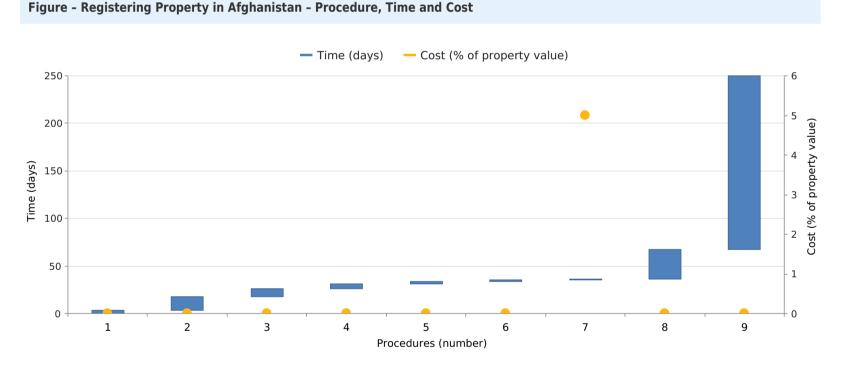

## **Registering Property - Afghanistan**

Indicator	Afghanistan	South Asia	OECD high income	Best Regulatory Performance
Procedures (number)	9	6.8	4.7	1 (4 Economies)
Time (days)	250	114.1	20.1	1 (New Zealand)
Cost (% of property value)	5.0	6.9	4.2	0.0 (Saudi Arabia)
Quality of the land administration index (0-30)	3.0	8.8	23.0	None in 2017/18

### Figure - Registering Property in Afghanistan and comparator economies - Ranking and Score

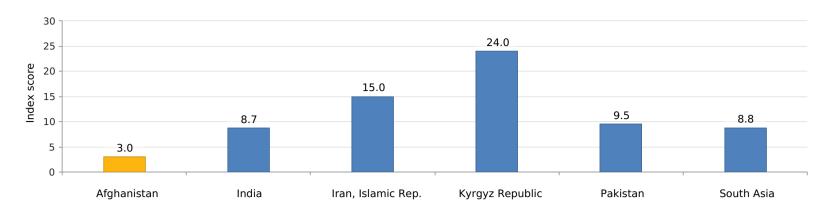

Note: The ranking of economies on the ease of registering property is determined by sorting their scores for registering property. These scores are the simple average of the scores for each of the component indicators.

\*This symbol is shown beside procedure numbers that take place simultaneously with the previous procedure.

Note: Online procedures account for 0.5 days in the total time calculation. For economies that have a different procedure list for men and women, the graph shows the time for women. For more information on methodology, see the *Doing Business* website (http://doingbusiness.org/en/methodology). For details on the procedures reflected here, see the summary below.

## Figure - Registering Property in Afghanistan and comparator economies - Measure of Quality

### **Details - Registering Property in Afghanistan - Procedure, Time and Cost**

No.	Procedures	Time to Complete	Associated Costs
1	<b>Obtain application form and two Circular forms from Primary Court</b> <i>Agency</i> : Primary Court The seller must file an application at the primary court in the relevant district in which the land is located. The Judge of the Primary Court signs the application form in order to initiate a search of Makhzan records.	3 days	no charge
2	Submit Circular Forms to the property Office (Milkiat-ha) in the Municipality Agency : Agency : Municipal Land Office (Amlak) The applicant takes the Circular Form to the Milkit-ha for certification of location and valuation of property and checking of the ownership. An Imlak committee establishes the value of the land after an inspection of the property. The value is entered on the Circular Form and 1% on that is charged, to be paid at the bank. The Procedure also includes checking for backlog sanitation taxes and making sure that the property is not under any restriction such as mortgages.	15 days	1% of the property value (paid in Procedure 7)
3	Submit signed Circular Form to the Chief of Makhzan to initiate the search of registered deeds Agency : Chief of Makhzan The applicant gives the signed Circular forms to the Makhzan to initiate the search of the Makhzan historical records of registered deeds. Once the application is filed, the validity of the property's legal deed must be verified in the Court of Appeals registry by the Head of the Makhzan. The Makhzan keeper searches for deeds in archives based on the details provided by the applicant (registry number and photos). The clerk then ensures that the information on the Circular form matches the records of the Makhzan. The keeper gives the deed book and the owner's property deed to the Chief of Makhzan, who will check for the correctness of ownership and sign again the Circular Form.	8 days	no charge
4	Submit the Circular Form to the Revenues and Collection office of the Mustufiat (Ministry of Finance Provincial Revenue Department) Agency : Ministry of Finance Provincial Revenue Department (Mustufiat) The applicant takes the Circular Form to the Tax Collection Office of the financial department of the local Mustufiat for certification of property taxes owed. The Ministry of Finance also charges 1% on the value determined by the Municipal committee.	5 days	1% of the property value (paid in Procedure 7)
5	Submit the Circular Form to the Human Resource Directorate for certification of signatures Agency : Mustofiat The Circular Form is submitted to the Human Resources Directorate to certify the signatures of the local and provincial (regional) Mustofiat staff.	3 days	no charge

## 6 **Submit back the completed Circular Form to the Primary Court judge** 1 day no charge *Agency* : Primary Court The completed Circular Form is reviewed by the Primary Court judge. The clerk writes tariffs for the applicant to pay the taxes (3% of the property value payable to the court and 1% of the property value payable to the Ministry of Finance) at a

designated bank.

Doing Business 2019	Afghanistan
---------------------	-------------

7	Seller pays property taxes at a designated bank Agency : Bank The seller pays the property taxes, indicated in the Circular Form, at a designated bank. For property values below AF 1 million, the registration fee is 2%. For property values above AFN 1 million (DB case), the registration fee is 3% of total property value (this is not a sliding scale). The Presidential decree and the decision of commune commission of two chambers of Parliament published on April 9th, 2009 introduced a fee schedule for registration fees in Afghanistan.	1 day	AFN 101,360.53; (3% of property value to the Court (Makama) (registration fees for property values above AFN 1 million; otherwise the rate is 2%)+ 1% municipallity, 1% Mustofiate (Ministry of Finance department) fees)
8	Submit the completed Circular Form, with payment receipts, to the Primary Court Agency : Primary Court The applicant returns to the Primary Court with the completed Circular Form and the receipts as proof of payment. The judge will order the clerk to prepare a new deed in two copies. The new deed is scrutinized by the Primary Court Judge, who signs both copies. The Konda (stub copy) is maintained in the Primary Court until the full record book is passed on to the Makhzan for storage. This takes place at the end of every financial year.	31 days	no charge
9	<b>The buyer applies for title transfer</b> <i>Agency</i> : Milkiat-ha Directorate of the Municipality The applicant brings the new Deed to the Milkiat-ha Directorate to change the names in the books (Safia book), as well as for all utilities.	183 days	no charge

**⇒**Takes place simultaneously with previous procedure.

## Details - Registering Property in Afghanistan - Measure of Quality

	Answer	Score
Reliability of infrastructure index (0-8)		0.0
What is the institution in charge of immovable property registration?	Afghanistan Independent Land Authority (ARAZI)	
In what format are the majority of title or deed records kept in the largest business city—in a paper format or in a computerized format (scanned or fully digital)?	Paper	0.0
Is there an electronic database for checking for encumbrances (liens, mortgages, restrictions and the like)?	No	0.0
Institution in charge of the plans showing legal boundaries in the largest business city:	Cadastral Department of Afghanistan Independent Land Authority (ARAZI)	
In what format are the majority of maps of land plots kept in the largest business city—in a paper format or in a computerized format (scanned or fully digital)?	Paper	0.0
Is there an electronic database for recording boundaries, checking plans and providing cadastral information (geographic information system)?	No	0.0
Is the information recorded by the immovable property registration agency and the cadastral or mapping agency kept in a single database, in different but linked databases or in separate databases?	Separate databases	0.0
Do the immovable property registration agency and cadastral or mapping agency use the same identification number for properties?	No	0.0
ransparency of information index (0-6)		0.0
Who is able to obtain information on land ownership at the agency in charge of immovable property registration in the largest business city?	Records are not publicly available	0.0
Is the list of documents that are required to complete any type of property transaction made publicly available–and if so, how?	No	0.0
Link for online access:		
Is the applicable fee schedule for any property transaction at the agency in charge of immovable property registration in the largest business city made publicly available-and if so, how?	No	0.0
Link for online access:		
Does the agency in charge of immovable property registration commit to delivering a legally binding document that proves property ownership within a specific time frame-and if so, how does it communicate the service standard?	No	0.0
Link for online access:		
Is there a specific and separate mechanism for filing complaints about a problem that occurred at the agency in charge of immovable property registration?	No	0.0
Contact information:		
Are there publicly available official statistics tracking the number of transactions at the immovable property registration agency?	No	0.0
Number of property transfers in the largest business city in 2017:		
Who is able to consult maps of land plots in the largest business city?	Records are not publicly available	0.0
Is the applicable fee schedule for accessing maps of land plots made publicly available— and if so, how?	No	0.0

Do married men and ma	arried women have equal ownership rights to property?	Yes	0.0

## 💳 Getting Credit

This topic explores two sets of issues—the strength of credit reporting systems and the effectiveness of collateral and bankruptcy laws in facilitating lending. The most recent round of data collection for the project was completed in May 2018. See the methodology for more information.

### What the indicators measure

### Strength of legal rights index (0-12)

- Rights of borrowers and lenders through collateral laws (0-10)
- Protection of secured creditors' rights through bankruptcy laws (0-2)

### Depth of credit information index (0-8)

 Scope and accessibility of credit information distributed by credit bureaus and credit registries (0-8)

### Credit bureau coverage (% of adults)

• Number of individuals and firms listed in largest credit bureau as a percentage of adult population

### Credit registry coverage (% of adults)

• Number of individuals and firms listed in credit registry as a percentage of adult population

### Case study assumptions

*Doing Business* assesses the sharing of credit information and the legal rights of borrowers and lenders with respect to secured transactions through 2 sets of indicators. The depth of credit information index measures rules and practices affecting the coverage, scope and accessibility of credit information available through a credit registry or a credit bureau. The strength of legal rights index measures the degree to which collateral and bankruptcy laws protect the rights of borrowers and lenders and thus facilitate lending. For each economy it is first determined whether a unitary secured transactions system exists. Then two case scenarios, case A and case B, are used to determine how a nonpossessory security interest is created, publicized and enforced according to the law. Special emphasis is given to how the collateral registry operates (if registration of security interests is possible). The case scenarios involve a secured borrower, company ABC, and a secured lender, BizBank.

In some economies the legal framework for secured transactions will allow only case A or case B (not both) to apply. Both cases examine the same set of legal provisions relating to the use of movable collateral.

# Several assumptions about the secured borrower (ABC) and lender (BizBank) are used:

- ABC is a domestic limited liability company (or its legal equivalent).
- ABC has up to 50 employees.

- ABC has its headquarters and only base of operations in the economy's largest business city. For 11 economies the data are also collected for the second largest business city.

- Both ABC and BizBank are 100% domestically owned.

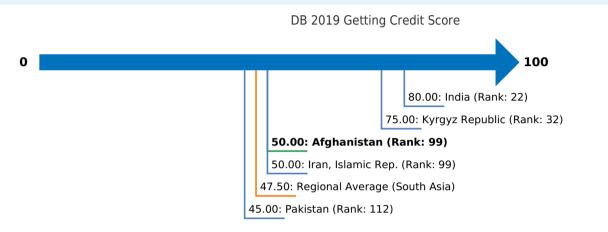

The case scenarios also involve assumptions. In case A, as collateral for the loan, ABC grants BizBank a nonpossessory security interest in one category of movable assets, for example, its machinery or its inventory. ABC wants to keep both possession and ownership of the collateral. In economies where the law does not allow nonpossessory security interests in movable property, ABC and BizBank use a fiduciary transfer-of-title arrangement (or a similar substitute for nonpossessory security interests).

In case B, ABC grants BizBank a business charge, enterprise charge, floating charge or any charge that gives BizBank a security interest over ABC's combined movable assets (or as much of ABC's movable assets as possible). ABC keeps ownership and possession of the assets.

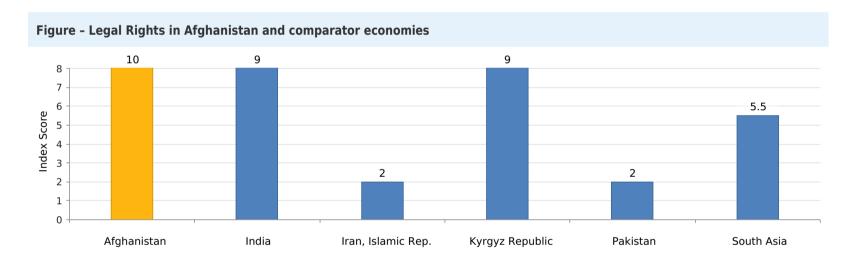

## **Getting Credit - Afghanistan**

Indicator	Afghanistan	South Asia	OECD high income	Best Regulatory Performance
Strength of legal rights index (0-12)	10	5.5	6.1	12 (5 Economies)
Depth of credit information index (0-8)	0	4.0	6.7	8 (42 Economies)
Credit registry coverage (% of adults)	1.3	4.8	21.8	100.0 (4 Economies)
Credit bureau coverage (% of adults)	0	18.5	65.3	100.0 (25 Economies)

Figure - Getting Credit in Afghanistan and comparator economies - Ranking and Score

Note: The ranking of economies on the ease of getting credit is determined by sorting their scores for getting credit. These scores are the sum of the scores for the strength of legal rights index and the depth of credit information index.

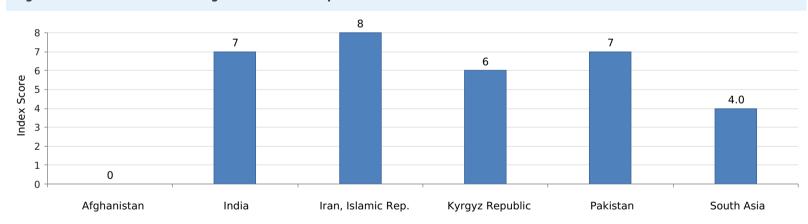

## Details - Legal Rights in Afghanistan

9	Strength of legal rights index (0-12)	10		
	Does an integrated or unified legal framework for secured transactions that extends to the creation, publicity and enforcement of functional equivalents to security interests in movable assets exist in the economy?	Yes		
	Does the law allow businesses to grant a non possessory security right in a single category of movable assets, without requiring a specific description of collateral?	Yes		
	Does the law allow businesses to grant a non possessory security right in substantially all of its assets, without requiring a specific description of collateral?	Yes		
	May a security right extend to future or after-acquired assets, and does it extend automatically to the products, proceeds and replacements of the original assets?	Yes		
Is a general description of debts and obligations permitted in collateral agreements; can all types of debts and obligations permitted in collateral agreements; can all types of debts and obligations secured between parties; and can the collateral agreement include a maximum amount for which the assets are encumbered?				
	Is a collateral registry in operation for both incorporated and non-incorporated entities, that is unified geographically and by asset type, with an electronic database indexed by debtor's name?	Yes		
	Does a notice-based collateral registry exist in which all functional equivalents can be registered?	Yes		
	Does a modern collateral registry exist in which registrations, amendments, cancellations and searches can be performed online by any interested third party?	Yes		
	Are secured creditors paid first (i.e. before tax claims and employee claims) when a debtor defaults outside an insolvency procedure?	No		
	Are secured creditors paid first (i.e. before tax claims and employee claims) when a business is liquidated?	Yes		
	Are secured creditors subject to an automatic stay on enforcement when a debtor enters a court-supervised reorganization procedure? Does the law protect secured creditors' rights by providing clear grounds for relief from the stay and sets a time limit for it?	No		
	Does the law allow parties to agree on out of court enforcement at the time a security interest is created? Does the law allow	Yes		

Does the law allow parties to agree on out of court enforcement at the time a security interest is created? Does the law allow Yes the secured creditor to sell the collateral through public auction or private tender, as well as, for the secured creditor to keep the asset in satisfaction of the debt?

## Figure - Credit Information in Afghanistan and comparator economies

## **Details - Credit Information in Afghanistan**

Depth of credit information index (0-8)	Credit bureau	Credit registry	Score
Are data on both firms and individuals distributed?	No	No	0
Are both positive and negative credit data distributed?	No	No	0
Are data from retailers or utility companies - in addition to data from banks and financial institutions - distributed?	No	No	0
Are at least 2 years of historical data distributed? (Credit bureaus and registries that distribute more than 10 years of negative data or erase data on defaults as soon as they are repaid obtain a score of 0 for this component.)	No	No	0
Are data on loan amounts below 1% of income per capita distributed?	No	No	0
By law, do borrowers have the right to access their data in the credit bureau or credit registry?	No	No	0
Can banks and financial institutions access borrowers' credit information online (for example, through an online platform, a system-to-system connection or both)?	No	No	0
Are bureau or registry credit scores offered as a value-added service to help banks and financial institutions assess the creditworthiness of borrowers?	No	No	0
Total Score ("yes" to either public bureau or private registry)			0

Note: An economy receives a score of 1 if there is a "yes" to either bureau or registry. If the credit bureau or registry is not operational or covers less than 5% of the adult population, the total score on the depth of credit information index is 0.

Coverage	Credit bureau	Credit registry
Number of individuals	0	240,227
Number of firms	0	6,261
Total	0	246,488
Percentage of adult population	0	1.3

#### Protecting Minority Investors

This topic measures the strength of minority shareholder protections against misuse of corporate assets by directors for their personal gain as well as shareholder rights, governance safeguards and corporate transparency requirements that reduce the risk of abuse. The most recent round of data collection for the project was completed in May 2018. See the methodology for more information.

#### What the indicators measure

- Extent of disclosure index (0-10): Review and approval requirements for related-party transactions; Disclosure requirements for relatedparty transactions
- Extent of director liability index (0-10): Ability of minority shareholders to sue and hold interested directors liable for prejudicial relatedparty transactions; Available legal remedies (damages, disgorgement of profits, fines, imprisonment, rescission of the transaction)
- Ease of shareholder suits index (0-10): Access to internal corporate documents; Evidence obtainable during trial and allocation of legal expenses
- Extent of conflict of interest regulation index (0-10): Simple average of the extent of disclosure, extent of director liability and ease of shareholder indices
- Extent of shareholder rights index (0-10): Shareholders' rights and role in major corporate decisions
- Extent of ownership and control index (0-10): Governance safeguards protecting shareholders from undue board control and entrenchment
- Extent of corporate transparency index (0-10): Corporate transparency on ownership stakes, compensation, audits and financial prospects
- Extent of shareholder governance index (0-10): Simple average of the extent of shareholders rights, extent of ownership and control and extent of corporate transparency indices
- Strength of minority investor protection index (0-10): Simple average of the extent of conflict of interest regulation and extent of shareholder governance indices

#### **Case study assumptions**

To make the data comparable across economies, a case study uses several assumptions about the business and the transaction.

### The business (Buyer):

- Is a publicly traded corporation listed on the economy's most important stock exchange. If there are fewer than ten listed companies or if there is no stock exchange in the economy, it is assumed that Buyer is a large private company with multiple shareholders.

Has a board of directors and a chief executive officer (CEO) who may legally act on behalf of Buyer where permitted, even if this is not specifically required by law.Has a supervisory board in economies with a two-tier board system on which Mr.

James appointed 60% of the shareholder-elected members. - Has not adopted bylaws or articles of association that go beyond the minimum

requirements. Does not follow codes, principles, recommendations or guidelines that are not mandatory.

- Is a manufacturing company with its own distribution network.

#### The transaction involves the following details:

- Mr. James owns 60% of Buyer, sits on Buyer's board of directors and elected two directors to Buyer's five-member board.

- Mr. James also owns 90% of Seller, a company that operates a chain of retail hardware stores. Seller recently closed a large number of its stores.

- Mr. James proposes that Buyer purchase Seller's unused fleet of trucks to expand Buyer's distribution of its food products, a proposal to which Buyer agrees. The price is equal to 10% of Buyer's assets and is higher than the market value.

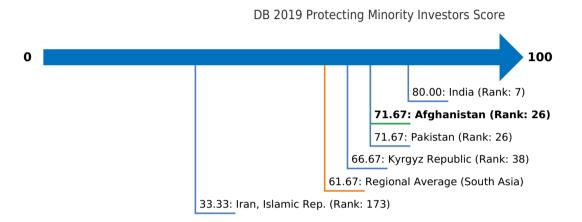

- The proposed transaction is part of the company's principal activity and is not outside the authority of the company.

Buyer enters into the transaction. All required approvals are obtained, and all required disclosures made—that is, the transaction was not entered into fraudulently.
The transaction causes damages to Buyer. Shareholders sue Mr. James and the executives and directors that approved the transaction.

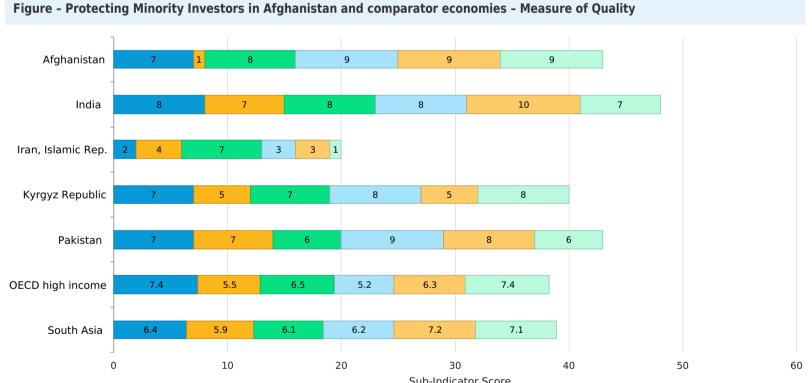

### **Protecting Minority Investors - Afghanistan**

Indicator	Afghanistan	South Asia	OECD high income	Best Regulatory Performance
Extent of disclosure index (0-10)	8.0	5.8	6.5	10 (13 Economies)
Extent of director liability index (0-10)	1.0	5.0	5.3	10 (Cambodia)
Ease of shareholder suits index (0-10)	9.0	7.4	7.3	10 (Djibouti)
Extent of shareholder rights index (0-10)	9.0	6.9	6.4	10 (Kazakhstan)
Extent of ownership and control index (0-10)	9.0	5.9	5.4	None in 2017/18
Extent of corporate transparency index (0-10)	7.0	6.1	7.6	10 (6 Economies)

Note: The ranking of economies on the strength of minority investor protections is determined by sorting their scores for protecting minority investors. These scores are the simple average of the scores for the extent of conflict of interest regulation index and the extent of shareholder governance index.

#### Sub-Indicator Score

Extent of corporate transparency index (0-10)
 Extent of director liability index (0-10)
 Extent of ownership and control index (0-10)
 Extent of shareholder rights index (0-10)
 Ease of shareholder suits index (0-10)

## Details - Protecting Minority Investors in Afghanistan - Measure of Quality

	Answer	Score
Extent of conflict of interest regulation index (0-10)		6
Extent of disclosure index (0-10)		8.0
Whose decision is sufficient to approve the Buyer-Seller transaction? (0-3)	Shareholders excluding interested parties	3.0
Must an external body review the terms of the transaction before it takes place? (0-1)	Yes	1.0
Must Mr. James disclose his conflict of interest to the board of directors? (0-2)	Full disclosure of all material facts	2.0
Must Buyer disclose the transaction in periodic filings (e.g. annual reports)? (0-2)	Disclosure on the transaction and on the conflict of interest	2.0
Must Buyer immediately disclose the transaction to the public? (0-2)	No disclosure obligation	0.0
Extent of director liability index (0-10)		1.0
Can shareholders representing 10% of Buyer's share capital sue for the damage the transaction caused to Buyer? (0-1)	Yes	1.0
Can shareholders hold Mr. James liable for the damage the transaction caused to Buyer? (0- 2)	Not liable	0.0
Can shareholders hold the other directors liable for the damage the transaction caused to Buyer (0-2)	Not liable	0.0
Must Mr. James pay damages for the harm caused to Buyer upon a successful claim by shareholders? (0-1)	No	0.0
Must Mr. James repay profits made from the transaction upon a successful claim by shareholders? (0-1)	No	0.0
Is Mr. James disqualified upon a successful claim by shareholders? (0-1)	No	0.0
Can a court void the transaction upon a successful claim by shareholders? (0-2)	Only in case of fraud or bad faith	0.0
Ease of shareholder suits index (0-10)		9.0
Before suing, can shareholders representing 10% of Buyer's share capital inspect the transaction documents? (0-1)	Yes	1.0
Can the plaintiff obtain any documents from the defendant and witnesses at trial? (0-3)	Any relevant document	3.0
Can the plaintiff request categories of documents from the defendant without identifying specific ones? (0-1)	Yes	1.0
Can the plaintiff directly question the defendant and witnesses at trial? (0-2)	Yes	2.0

Is the level of proof required for civil suits lower than that of criminal cases? (0-1)	No	0.0
Can shareholder plaintiffs recover their legal expenses from the company? (0-2)	Yes regardless of outcome	2.0
Extent of shareholder governance index (0-10)		8.3
Extent of shareholder rights index (0-10)		9.0
Does the sale of 51% of Buyer's assets require shareholder approval?	Yes	1.0
Can shareholders representing 10% of Buyer's share capital call for a meeting of shareholders?	Yes	1.0
Must Buyer obtain its shareholders' approval every time it issues new shares?	Yes	1.0
Do shareholders automatically receive preemption rights every time Buyer issues new shares?	Yes	1.0

Doing Business 2019 Afghanistan		
Must shareholders approve the election and dismissal of the external auditor?	Yes	1.0
Are changes to the rights of a class of shares only possible if the holders of the affected shares approve?	Yes	1.0
Assuming that Buyer is a limited company, does the sale of 51% of its assets require member approval?	Yes	1.0
Assuming that Buyer is a limited company, can members representing 10% call for a meeting of members?	Yes	1.0
Assuming that Buyer is a limited company, must all or almost all members consent to add a new member?	No	0.0
Assuming that Buyer is a limited company, must a member first offer to sell their interest to the existing members before they can sell to non-members?	Yes	1.0
xtent of ownership and control index (0-10)		9.0
Is it forbidden to appoint the same individual as CEO and chairperson of the board of directors?	Yes	1.0
Must the board of directors include independent and nonexecutive board members?	Yes	1.0
Can shareholders remove members of the board of directors without cause before the end of their term?	Yes	1.0
Must the board of directors include a separate audit committee exclusively comprising board members?	Yes	1.0
Must a potential acquirer make a tender offer to all shareholders upon acquiring 50% of Buyer?	Yes	1.0
Must Buyer pay declared dividends within a maximum period set by law?	yes	1.0
Is a subsidiary prohibited from acquiring shares issued by its parent company?	Yes	1.0
Assuming that Buyer is a limited company, must Buyer have a mechanism to resolve disagreements among members?	No	0.0
Assuming that Buyer is a limited company, must a potential acquirer make a tender offer to all shareholders upon acquiring 50% of Buyer?	Yes	1.0
Assuming that Buyer is a limited company, must Buyer distribute profits within a maximum period set by law?	Yes	1.0
xtent of corporate transparency index (0-10)		7.0
Must Buyer disclose direct and indirect beneficial ownership stakes representing 5%?	Yes	1.0
Must Buyer disclose information about board members' primary employment and directorships in other companies?	Yes	1.0
Must Buyer disclose the compensation of individual managers?	No	0.0
Must a detailed notice of general meeting be sent 21 days before the meeting?	Yes	1.0
Can shareholders representing 5% of Buyer's share capital put items on the general meeting agenda?	Yes	1.0

Must Buyer's annual financial statements be audited by an external auditor?	Yes	1.0
Must Buyer disclose its audit reports to the public?	No	0.0
Assuming that Buyer is a limited company, must members meet at least once a year?	Yes	1.0
Assuming that Buyer is a limited company, can members representing 5% put items on the meeting agenda?	Yes	1.0
Assuming that Buyer is a limited company, must Buyer's annual financial statements be audited by an external auditor?	No	0.0

### **[5]** Paying Taxes

This topic records the taxes and mandatory contributions that a medium-size company must pay or withhold in a given year, as well as the administrative burden of paying taxes and contributions and complying with postfiling procedures (VAT refund and tax audit). The most recent round of data collection for the project was completed in May 2018 covering for the Paying Taxes indicator calendar year 2017 (January 1, 2017 – December 31, 2017). See the methodology for more information.

#### What the indicators measure

### **Case study assumptions**

Tax payments for a manufacturing company in 2017 (number per year adjusted for electronic and joint filing and payment)

- Total number of taxes and contributions paid or withheld, including consumption taxes (value added tax, sales tax or goods and service tax)
- Method and frequency of filing and payment

# Time required to comply with 3 major taxes (hours per year)

- Collecting information, computing tax payable
- Preparing separate tax accounting books, if required
- Completing tax return, filing with agencies
- Arranging payment or withholding

# Total tax and contribution rate (% of commercial profits)

- Profit or corporate income tax
- Social contributions, labor taxes paid by employer
- Property and property transfer taxes
- Dividend, capital gains, financial transactions taxes
- Waste collection, vehicle, road and other taxes

#### **Postfiling Index**

- Time to comply with a VAT refund (hours)
- Time to obtain a VAT refund (weeks)
- Time to comply with a corporate income tax correction (hours)
- Time to complete a corporate income tax correction (weeks)

Using a case scenario, *Doing Business* records taxes and mandatory contributions a medium size company must pay in a year, and measures the administrative burden of paying taxes, contributions and dealing with postfiling processes. Information is also compiled on frequency of filing and payments, time taken to comply with tax laws, time taken to comply with the requirements of postfiling processes and time waiting.

To make data comparable across economies, several assumptions are used: - TaxpayerCo is a medium-size business that started operations on January 1, 2016. It produces ceramic flowerpots and sells them at retail. All taxes and contributions recorded are paid in the second year of operation (calendar year 2017). Taxes and mandatory contributions are measured at all levels of government.

### The VAT refund process:

- In June 2017, TaxpayerCo. makes a large capital purchase: the value of the machine is 65 times income per capita of the economy. Sales are equally spread per month (1,050 times income per capita divided by 12) and cost of goods sold are equally expensed per month (875 times income per capita divided by 12). The machinery seller is registered for VAT and excess input VAT incurred in June will be fully recovered after four consecutive months if the VAT rate is the same for inputs, sales and the machine and the tax reporting period is every month. Input VAT will exceed Output VAT in June 2017.

### The corporate income tax audit process:

- An error in calculation of income tax liability (for example, use of incorrect tax depreciation rates, or incorrectly treating an expense as tax deductible) leads to an incorrect income tax return and a corporate income tax underpayment. TaxpayerCo. discovered the error and voluntarily notified the tax authority. The value of the underpaid income tax liability is 5% of the corporate income tax liability due. TaxpayerCo. submits corrected information after the deadline for submitting the annual tax return, but within the tax assessment period.

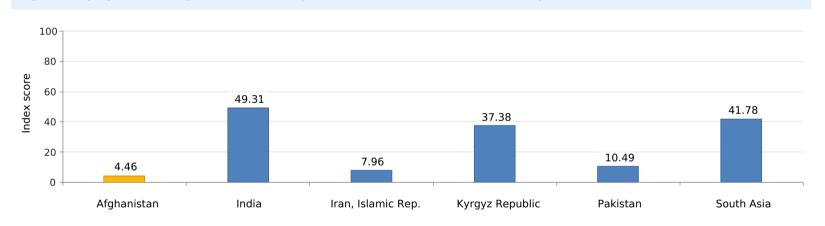

### **Paying Taxes - Afghanistan**

Indicator	Afghanistan	South Asia	OECD high income	Best Regulatory Performance
Payments (number per year)	19	27.6	11.2	3 (Hong Kong SAR, China)
Time (hours per year)	270	274.8	159.4	49 (Singapore)
Total tax and contribution rate (% of profit)	71.4	43.5	39.8	26.1% (32 Economies)
Postfiling index (0-100)	4.46	41.78	84.41	None in 2017/18

Figure - Paying Taxes in Afghanistan and comparator economies - Ranking and Score

Note: The ranking of economies on the ease of paying taxes is determined by sorting their scores for paying taxes. These scores are the simple average of the scores for each of the component indicators, with a threshold and a nonlinear transformation applied to one of the component indicators, the total tax and contribution rate. The threshold is defined as the total tax and contribution rate at the 15th percentile of the overall distribution for all years included in the analysis up to and including Doing Business 2015, which is 26.1%. All economies with a total tax and contribution rate below this threshold receive the same score as the economy at the threshold.

### Figure - Paying Taxes in Afghanistan and comparator economies - Measure of Quality

## Doing Business 2019 Afghanistan

## Details - Paying Taxes in Afghanistan

Tax or mandatory contribution	Payments (number)	Notes on Payments	Time (hours)	Statutory tax rate	Tax base	Total tax and contribution rate (% of profit)	Notes on TTCR
Business receipts tax	4.0		78.0	4%	sales	70.71	
Interest tax	0.0	withheld		20%	interest income	0.51	
Vehicle registration tax	1.0				various rates	0.21	
Personal income tax	12.0		116.0		taxable income	0.00	withheld
Corporate income tax	1.0		76.0	20%	taxable profit	0.00	
Fuel tax	1.0				included into fuel price	0.00	small amount
Totals	19		270			71.4	

## Details - Paying Taxes in Afghanistan - Tax by Type

Taxes by type	Answer
Profit tax (% of profit)	0
Labor tax and contributions (% of profit)	0
Other taxes (% of profit)	71.4

# **Details - Paying Taxes in Afghanistan - Measure of Quality**

	Answer	Score
Postfiling index (0-100)		4.46
VAT refunds		
Does VAT exist?	No	
Does a VAT refund process exist per the case study?	N/A	
Restrictions on VAT refund process	N/A	
Percentage of cases exposed to a VAT audit (%)	Not applicable	
Is there a mandatory carry forward period?	Not Applicable	
Time to comply with VAT refund (hours)	No VAT	No VAT
Time to obtain a VAT refund (weeks)	No VAT	No VAT
Corporate income tax audits		
Does corporate income tax exist?	Yes	
Percentage of cases exposed to a corporate income tax audit (%)	75% - 100%	
Time to comply with a corporate income tax correction (hours)	111.0	0
Time to complete a corporate income tax correction (weeks)	29.1	8.93

**Notes:** Names of taxes have been standardized. For instance income tax, profit tax, tax on company's income are all named corporate income tax in this table.

The hours for VAT include all the VAT and sales taxes applicable.

The hours for Social Security include all the hours for labor taxes and mandatory contributions in general.

The postfiling index is the average of the scores on time to comply with VAT refund, time to obtain a VAT refund, time to comply with a corporate income tax correction and time to complete a corporate income tax correction.

N/A = Not applicable.

### Trading across Borders

Doing Business records the time and cost associated with the logistical process of exporting and importing goods. Doing Business measures the time and cost (excluding tariffs) associated with three sets of procedures—documentary compliance, border compliance and domestic transport—within the overall process of exporting or importing a shipment of goods. The most recent round of data collection for the project was completed in May 2018. See the methodology for more information.

### What the indicators measure

#### **Documentary compliance**

- Obtaining, preparing and submitting documents during transport, clearance, inspections and port or border handling in origin economy
- Obtaining, preparing and submitting documents required by destination economy and any transit economies
- Covers all documents required by law and in practice, including electronic submissions of information

#### Border compliance

- Customs clearance and inspections
- Inspections by other agencies (if applied to more than 20% of shipments)
- Handling and inspections that take place at the economy's port or border

### **Domestic transport**

- Loading or unloading of the shipment at the warehouse or port/border
- Transport between warehouse and port/border
- Traffic delays and road police checks while shipment is en route

#### Case study assumptions

To make the data comparable across economies, a few assumptions are made about the traded goods and the transactions:

**Time:** Time is measured in hours, and 1 day is 24 hours (for example, 22 days are recorded as 22×24=528 hours). If customs clearance takes 7.5 hours, the data are recorded as is. Alternatively, suppose documents are submitted to a customs agency at 8:00a.m., are processed overnight and can be picked up at 8:00a.m. the next day. The time for customs clearance would be recorded as 24 hours because the actual procedure took 24 hours.

**Cost:** Insurance cost and informal payments for which no receipt is issued are excluded from the costs recorded. Costs are reported in U.S. dollars. Contributors are asked to convert local currency into U.S. dollars based on the exchange rate prevailing on the day they answer the questionnaire. Contributors are private sector experts in international trade logistics and are informed about exchange rates.

#### Assumptions of the case study:

- For all 190 economies covered by *Doing Business*, it is assumed a shipment is in a warehouse in the largest business city of the exporting economy and travels to a warehouse in the largest business city of the importing economy.

- It is assumed each economy imports 15 metric tons of containerized auto parts (HS 8708) from its natural import partner—the economy from which it imports the largest value (price times quantity) of auto parts. It is assumed each economy exports the product of its comparative advantage (defined by the largest export value) to its natural export partner—the economy that is the largest purchaser of this product. Shipment value is assumed to be \$50,000.

The mode of transport is the one most widely used for the chosen export or import product and the trading partner, as is the seaport or land border crossing.
All electronic information submissions requested by any government agency in connection with the shipment are considered to be documents obtained, prepared and submitted during the export or import process.

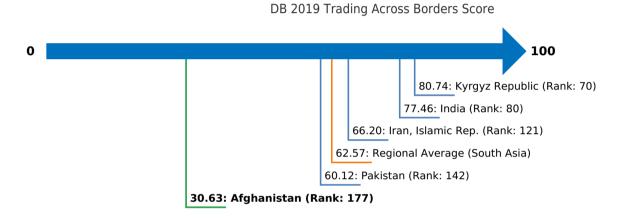

- A port or border is a place (seaport or land border crossing) where merchandise can enter or leave an economy.

- Relevant government agencies include customs, port authorities, road police, border guards, standardization agencies, ministries or departments of agriculture or industry, national security agencies and any other government authorities.

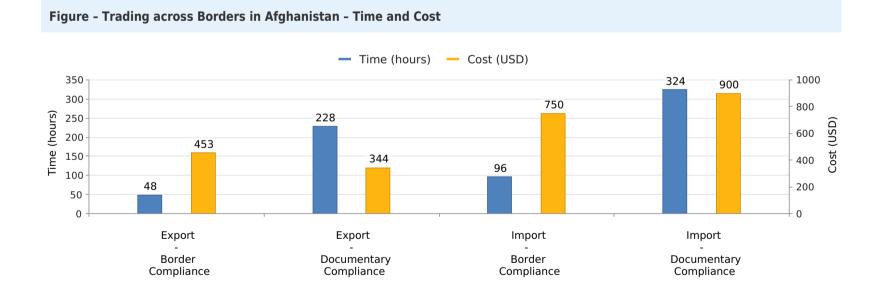

### Trading across Borders - Afghanistan

Indicator	Afghanistan	South Asia	OECD high income	Best Regulatory Performance
Time to export: Border compliance (hours)	48	62.9	12.5	1 (19 Economies)
Cost to export: Border compliance (USD)	453	347.2	139.1	0 (19 Economies)
Time to export: Documentary compliance (hours)	228	74.1	2.4	1 (26 Economies)
Cost to export: Documentary compliance (USD)	344	160.3	35.2	0 (20 Economies)
Time to import: Border compliance (hours)	96	95.8	8.5	0 (25 Economies)
Cost to import: Border compliance (USD)	750	504.6	100.2	0 (28 Economies)
Time to import: Documentary compliance (hours)	324	100.8	3.4	1 (30 Economies)
Cost to import: Documentary compliance (USD)	900	276.7	24.9	0 (30 Economies)

### Figure - Trading across Borders in Afghanistan and comparator economies - Ranking and Score

Note: The ranking of economies on the ease of trading across borders is determined by sorting their scores for trading across borders. These scores are the simple average of the scores for the time and cost for documentary compliance and border compliance to export and import.

# Details - Trading across Borders in Afghanistan

# **m** Enforcing Contracts

The enforcing contracts indicator measures the time and cost for resolving a commercial dispute through a local first-instance court, and the quality of judicial processes index, evaluating whether each economy has adopted a series of good practices that promote quality and efficiency in the court system. The most recent round of data collection was completed in May 2018. See the methodology for more information.

What the indicators measure	Case study assumptions
Time required to enforce a contract through the courts (calendar days)	The dispute in the case study involves the breach of a sales contract between 2 domestic businesses. The case study assumes that the court hears an expert on the
<ul> <li>Time to file and serve the case</li> </ul>	quality of the goods in dispute. This distinguishes the case from simple debt enforcement.
<ul> <li>Time for trial and to obtain the judgment</li> </ul>	
• Time to enforce the judgment	To make the data comparable across economies, <i>Doing Business</i> uses several assumptions about the case:
Cost required to enforce a contract through the courts (% of claim)	<ul> <li>The dispute concerns a lawful transaction between two businesses (Seller and Buyer), both located in the economy's largest business city. For 11 economies the data are also collected for the second largest business city.</li> </ul>
Attorney fees	- The buyer orders custom-made goods, then fails to pay alleging that the goods are
• Court fees	not of adequate quality.
• Enforcement fees	- The value of the dispute is 200% of the income per capita or the equivalent in local currency of USD 5,000, whichever is greater.
Quality of judicial processes index (0-18)	- The seller sues the buyer before the court with jurisdiction over commercial cases worth 200% of income per capita or \$5,000.
<ul> <li>Court structure and proceedings (-1-5)</li> </ul>	- The seller requests the pretrial attachment of the defendant's movable assets to
<ul> <li>Case management (0-6)</li> </ul>	secure the claim. - The dispute on the quality of the goods requires an expert opinion.
<ul> <li>Court automation (0-4)</li> </ul>	- The judge decides in favor of the seller; there is no appeal.
<ul> <li>Alternative dispute resolution (0-3)</li> </ul>	- The seller enforces the judgment through a public sale of the buyer's movable assets.

# Details - Enforcing Contracts in Afghanistan - Measure of Quality

	Answer	Score
Quality of judicial processes index (0-18)		5.0
Court structure and proceedings (-1-5)		2.0
1. Is there a court or division of a court dedicated solely to hearing commercial cases?	Yes	1.5
2. Small claims court		0.0
2.a. Is there a small claims court or a fast-track procedure for small claims?	No	
2.b. If yes, is self-representation allowed?	n.a.	
3. Is pretrial attachment available?	Yes	1.0
4. Are new cases assigned randomly to judges?	Yes, but manual	0.5
5. Does a woman's testimony carry the same evidentiary weight in court as a man's?	No	-1.0
Case management (0-6)		1.0
1. Time standards		0.0
1.a. Are there laws setting overall time standards for key court events in a civil case?	No	
1.b. If yes, are the time standards set for at least three court events?	n.a.	
1.c. Are these time standards respected in more than 50% of cases?	n.a.	
2. Adjournments		0.0
2.a. Does the law regulate the maximum number of adjournments that can be granted?	No	
2.b. Are adjournments limited to unforeseen and exceptional circumstances?	No	
2.c. If rules on adjournments exist, are they respected in more than 50% of cases?	n.a.	
3. Can two of the following four reports be generated about the competent court: (i) time to disposition report; (ii) clearance rate report; (iii) age of pending cases report; and (iv) single case progress report?	No	0.0
4. Is a pretrial conference among the case management techniques used before the competent court?	Yes	1.0
5. Are there any electronic case management tools in place within the competent court for use by judges?	No	0.0
6. Are there any electronic case management tools in place within the competent court for use by lawyers?	No	0.0
Court automation (0-4)		0.0
1. Can the initial complaint be filed electronically through a dedicated platform within the competent court?	no	0.0

2. Is it possible to carry out service of process electronically for claims filed before the competent court?	No	0.0
3. Can court fees be paid electronically within the competent court?	No	0.0
4. Publication of judgments		0.0
4.a Are judgments rendered in commercial cases at all levels made available to the general public through publication in official gazettes, in newspapers or on the internet or court website?	No	
4.b. Are judgments rendered in commercial cases at the appellate and supreme court level made available to the general public through publication in official gazettes, in newspapers or on the internet or court website?	No	
Alternative dispute resolution (0-3)		2.0
1. Arbitration		1.0

Doing Business 2019	Afghanistan		
consolidated ch	c commercial arbitration governed by a consolidated law or hapter or section of the applicable code of civil procedure substantially all its aspects?	Yes

2.a. ls voluntar	y mediation or conciliation available?	Yes	
consolidated ch	tion, conciliation or both governed by a consolidated law or napter or section of the applicable code of civil procedure substantially all their aspects?	Yes	
	nancial incentives for parties to attempt mediation or conciliation on or conciliation is successful, a refund of court filing fees, income ne like)?	No	

# 💸 Resolving Insolvency

*Doing Business* studies the time, cost and outcome of insolvency proceedings involving domestic legal entities. These variables are used to calculate the recovery rate, which is recorded as cents on the dollar recovered by secured creditors through reorganization, liquidation or debt enforcement (foreclosure or receivership) proceedings. To determine the present value of the amount recovered by creditors, *Doing Business* uses the lending rates from the International Monetary Fund, supplemented with data from central banks and the Economist Intelligence Unit. The most recent round of data collection was completed in May 2018. See the methodology for more information.

What the indicators measure	Case study assumptions	
Time required to recover debt (years)	To make the data on the time, cost and outcome comparable across economies,	
Measured in calendar years	several assumptions about the business and the case are used:	
<ul> <li>Appeals and requests for extension are included</li> </ul>	- A hotel located in the largest city (or cities) has 201 employees and 50 suppliers. The hotel experiences financial difficulties.	
Cost required to recover debt (% of debtor's estate)	- The value of the hotel is 100% of the income per capita or the equivalent in loc currency of USD 200,000, whichever is greater.	
<ul> <li>Measured as percentage of estate value</li> </ul>	<ul> <li>The hotel has a loan from a domestic bank, secured by a mortgage over the hotel's real estate. The hotel cannot pay back the loan, but makes enough money to</li> </ul>	
• Court fees	operate otherwise.	
<ul> <li>Fees of insolvency administrators</li> </ul>	In addition, <i>Doing Business</i> evaluates the quality of legal framework applicable to	
• Lawyers' fees	judicial liquidation and reorganization proceedings and the extent to which best	
<ul> <li>Assessors' and auctioneers' fees</li> </ul>	insolvency practices have been implemented in each economy covered.	
Other related fees		
Outcome		
• Whether business continues operating as a going		

• Whether business continues operating as a going concern or business assets are sold piecemeal

### **Recovery rate for creditors**

- Measures the cents on the dollar recovered by secured creditors
- Outcome for the business (survival or not) determines the maximum value that can be recovered
- Official costs of the insolvency proceedings are deducted
- Depreciation of furniture is taken into account
- Present value of debt recovered

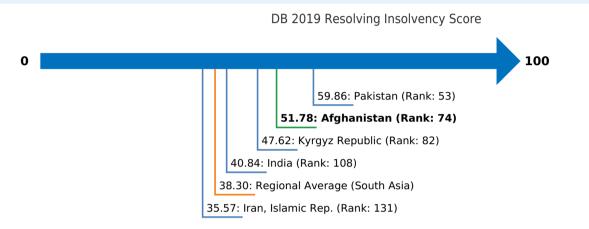

### Strength of insolvency framework index (0-16)

- Sum of the scores of four component indices:
- Commencement of proceedings index (0-3)
- Management of debtor's assets index (0-6)
- Reorganization proceedings index (0-3)
- Creditor participation index (0-4)

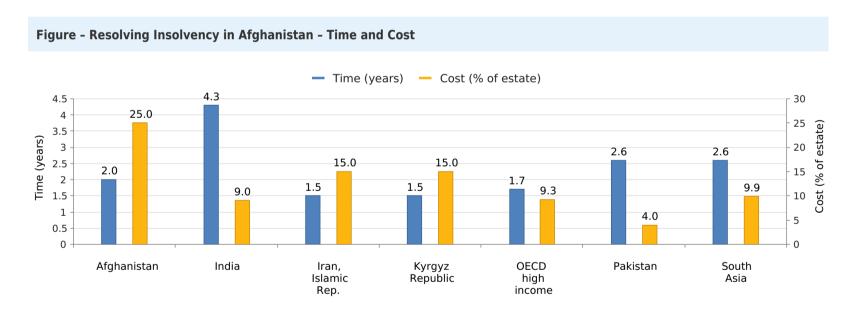

# **Resolving Insolvency - Afghanistan**

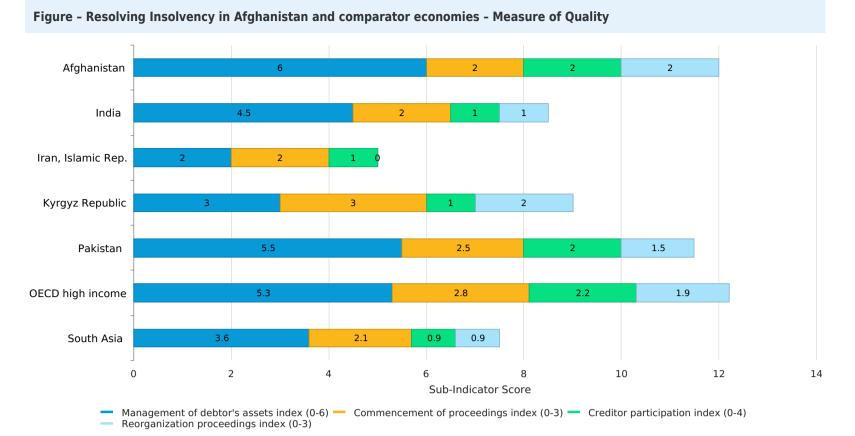

Indicator	Afghanistan	South Asia	OECD high income	Best Regulatory Performance
Recovery rate (cents on the dollar)	26.5	32.7	70.5	None in 2017/18
Time (years)	2.0	2.6	1.7	0.4 (Ireland)
Cost (% of estate)	25.0	9.9	9.3	1.0 (Norway)
Outcome (0 as piecemeal sale and 1 as going concern)	0			
Strength of insolvency framework index (0-16)	12.0	6.6	11.9	None in 2017/18

Figure - Resolving Insolvency in Afghanistan and comparator economies - Ranking and Score

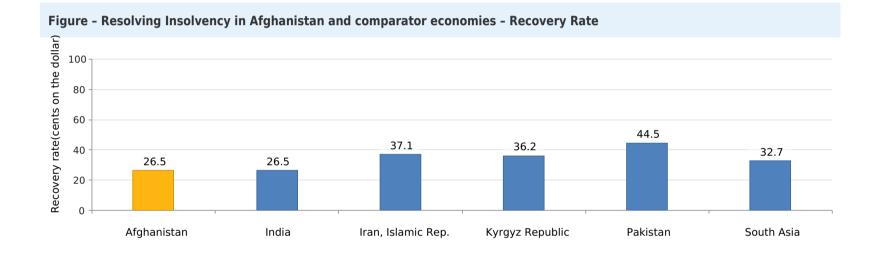

Note: The ranking of economies on the ease of resolving insolvency is determined by sorting their scores for resolving insolvency. These scores are the simple average of the scores for the recovery rate and the strength of insolvency framework index.

Note: Even if the economy's legal framework includes provisions related to insolvency proceedings (liquidation or reorganization), the economy receives 0 points for the strength of insolvency framework index, if time, cost and outcome indicators are recorded as "no practice."

# Details - Resolving Insolvency in Afghanistan

Indicator	Answer	Score
Proceeding	foreclosure	Depending on the security, Mirage's case may fall within the ambit of a Commercial Mortgage. In order for a mortgage to be considered commercial it must be made for commercial purposes (Article 697 of the Commercial Code). Article 706 provides the procedure to be adopted by Bizbank for the sale of the mortgaged hotel property in the event of default on loan payments by Mirage. To affect the sale of mortgaged property, the creditor shall request the relevant Commercial Court for permission to sell the mortgaged property. On receipt of such request the Court shall notify the debtor. Any objection from the debtor is required to be submitted within three days. Failing the receipt of objection from the debtor within three days, the Commercial Court may make a decision concerning the sale of the mortgaged property. The specific time and date of sale should be mentioned by the Court in its decision. Furthermore, the decision should unambiguously state that the decision of the Court shall be considered to be final if the creditor fails to object to such decision within three days. In case objections are received from the creditor, the Court has within 8 days of the date of receipt of objections to hear such objections prior to ruling on the matter.
Outcome	piecemeal sale	After the Court's decision, BizBank would gain possession of Mirage's assets secured by the mortgage and sell them. After the sale, the business will lose its assets and will not be able to continue operating.
Time (in years)	2.0	It takes 2 years from Mirage's default until BizBank is repaid some of the money owed to it. It usually takes about 3 months for Mirage to initiate foreclosure through the Court and informs all the parties about the foreclosure through a publication in a newspaper. The delay in the completion of foreclosure proceeding is caused by the inefficiency of court which takes about a year to make a decision on the case.
Cost (% of estate)	25.0	The costs associated with the case would amount to approximately 25% of the value of the debtor's estate. Cost incurred during the entire insolvency process mainly include court or government agency fees (10%), attorney fees (12%), costs of notification and publication (1%), fees of accountants, assessors, inspectors and other professionals (1%), and fees of auctioneers (1%).
Recovery rate (cents on the dollar)		26.5

# Details - Resolving Insolvency in Afghanistan - Measure of Quality

	Answer	Score
Strength of insolvency framework index (0-16)		12.0
Commencement of proceedings index (0-3)		2.0
What procedures are available to a DEBTOR when commencing insolvency proceedings?	(b) Debtor may file for liquidation only	0.5
Does the insolvency framework allow a CREDITOR to file for insolvency of the debtor?	(b) Yes, but a creditor may file for liquidation only	0.5
What basis for commencement of the insolvency proceedings is allowed under the insolvency framework?	(c) Both (a) and (b) options are available, but only one of them needs to be complied with	1.0
Management of debtor's assets index (0-6)		6.0
Does the insolvency framework allow the continuation of contracts supplying essential goods and services to the debtor?	Yes	1.0
Does the insolvency framework allow the rejection by the debtor of overly burdensome contracts?	Yes	1.0
Does the insolvency framework allow avoidance of preferential transactions?	Yes	1.0
Does the insolvency framework allow avoidance of undervalued transactions?	Yes	1.0
Does the insolvency framework provide for the possibility of the debtor obtaining credit after commencement of insolvency proceedings?	Yes	1.0
Does the insolvency framework assign priority to post-commencement credit?	(b) Yes over ordinary unsecured creditors but not over secured creditors	1.0
Reorganization proceedings index (0-3)		2.0
Which creditors vote on the proposed reorganization plan?	(b) Only creditors whose rights are affected by the proposed plan	1.0
Does the insolvency framework require that dissenting creditors in reorganization receive at least as much as what they would obtain in a liquidation?	Yes	1.0
Are the creditors divided into classes for the purposes of voting on the reorganization plan, does each class vote separately and are creditors in the same class treated equally?	No	0.0

**Creditor participation index (0-4)** 

Does the insolvency framework require approval by the creditors for selection or appointment of the insolvency representative?	No	0.0
Does the insolvency framework require approval by the creditors for sale of substantial assets of the debtor?	Yes	1.0
Does the insolvency framework provide that a creditor has the right to request information from the insolvency representative?	No	0.0
Does the insolvency framework provide that a creditor has the right to object to decisions accepting or rejecting creditors' claims?	Yes	1.0

**Note:** Even if the economy's legal framework includes provisions related to insolvency proceedings (liquidation or reorganization), the economy receives 0 points for the strength of insolvency framework index, if time, cost and outcome indicators are recorded as "no practice."

### **22** Labor Market Regulation

*Doing Business* presents detailed data for the labor market regulation indicators on the *Doing Business* website (http://www.doingbusiness.org). The report does not present rankings of economies on these indicators or include the topic in the aggregate ease of doing business score or ranking on the ease of doing business.

### What the indicators measure

### **Case study assumptions**

### Hiring

 (i) whether fixed-term contracts are prohibited for permanent tasks;
 (ii) maximum cumulative duration of fixed-term contracts;
 (iii) length of the probationary period;
 (iv) minimum wage.

### Working hours

(i) maximum number of working days allowed per week; (ii) premiums for work: at night, on a weekly rest day and overtime; (iii) whether there are restrictions on work at night, work on a weekly rest day and for overtime work; (iv) whether nonpregnant and nonnursing women can work same night hours as men; (v) length of paid annual leave.

### **Redundancy rules**

(i) whether redundancy can be basis for terminating workers; (ii) whether employer needs to notify and/or get approval from third party to terminate 1 redundant worker and a group of 9 redundant workers; (iii) whether law requires employer to reassign or retrain a worker before making worker redundant; (iv) whether priority rules apply for redundancies and reemployment.

### **Redundancy cost**

(i) notice period for redundancy dismissal; (ii) severance payments due when terminating a redundant worker.

### Job quality

(i) whether law mandates equal remuneration for work of equal value and nondiscrimination based on gender in hiring; (ii) whether law mandates paid or unpaid maternity leave; (iii) length of paid maternity leave; (iv) whether employees on maternity leave receive 100% of wages; (v) availability of five fully paid days of sick leave a year; (vi) eligibility requirements for unemployment protection. To make the data comparable across economies, several assumptions about the worker and the business are used.

### The worker:

- Is a cashier in a supermarket or grocery store, age 19, with one year of work experience.

- Is a full-time employee.
- Is not a member of the labor union, unless membership is mandatory.

### The business:

- Is a limited liability company (or the equivalent in the economy).

- Operates a supermarket or grocery store in the economy's largest business city.
- For 11 economies the data are also collected for the second largest business city. - Has 60 employees.

Is subject to collective bargaining agreements if such agreements cover more than 50% of the food retail sector and they apply even to firms that are not party to them.
Abides by every law and regulation but does not grant workers more benefits than those mandated by law, regulation or (if applicable) collective bargaining agreements.

# Labor Market Regulation - Afghanistan

# Details - Labor Market Regulation in Afghanistan

	Answer
Hiring	
Fixed-term contracts prohibited for permanent tasks?	No
Maximum length of a single fixed-term contract (months)	No limit
Maximum length of fixed-term contracts, including renewals (months)	No limit
Minimum wage applicable to the worker assumed in the case study (US\$/month)	0.0
Ratio of minimum wage to value added per worker	0.0
Maximum length of probationary period (months)	3.0
Working hours	
Standard workday	8.0
Maximum number of working days per week	6.0
Premium for night work (% of hourly pay)	15.0
Premium for work on weekly rest day (% of hourly pay)	50.0
Premium for overtime work (% of hourly pay)	25.0
Restrictions on night work?	Yes
Whether nonpregnant and nonnursing women can work the same night hours as men	No
Restrictions on weekly holiday?	No
Restrictions on overtime work?	Yes
Paid annual leave for a worker with 1 year of tenure (working days)	20.0
Paid annual leave for a worker with 5 years of tenure (working days)	20.0
Paid annual leave for a worker with 10 years of tenure (working days)	20.0
Paid annual leave (average for workers with 1, 5 and 10 years of tenure, in working days)	20.0

### **Business Reforms in Afghanistan**

In the past year, *Doing Business* observed a peaking of reform activity worldwide. From June 2, 2017, to May 1, 2018, 128 economies implemented a record 314 regulatory reforms improving the business climate. Reforms inspired by *Doing Business* have been implemented by economies in all regions. The following are reforms implemented since *Doing Business* 2008.

 $\checkmark$  = Doing Business reform making it easier to do business.  $\times$  = Change making it more difficult to do business.

#### DB2019

Starting a Business: Afghanistan made starting a business less costly by reducing the fees for business incorporation

Getting Credit: Afghanistan strengthened access to credit by enacting a new insolvency law. Secured creditors are now given absolute priority over other claims within insolvency proceedings.

Protecting Minority Investors: Afghanistan strengthened minority investor protections by requiring greater disclosure of transactions with interested parties, easing shareholder suits by extending access to documents and evidence during trial, increasing shareholders' rights and role in major corporate decisions, clarifying ownership and control structures and requiring greater corporate transparency.

**Paying Taxes:** Afghanistan made paying taxes easier by adopting a new tax administration and law manual with clear rules and guidelines on tax audit, and by automating the submission of tax returns.

**Resolving Insolvency:** Afghanistan made resolving insolvency easier by improving the continuation of the debtor's business during insolvency proceedings, introducing the reorganization procedure and granting creditors greater participation in the proceedings.

### DB2018

**Starting a Business:** Afghanistan made starting a business more costly by requiring that entrepreneurs pay the business license fee for three years at the time of incorporation.

### DB2017

× Paying Taxes: Afghanistan made paying taxes more costly by increasing the business receipts tax rate.

Trading across Borders: Afghanistan made exporting and importing easier by enhancing the usage of different modules of the ASYCUDA World customs processing system.

#### DB2016

× Starting a Business: Afghanistan made starting a business more costly by increasing the registration and publication fees.

Getting Credit: Afghanistan improved access to credit information by launching a credit registry.

### DB2015

**X** Starting a Business: Afghanistan made starting a business more difficult by increasing the publication fees and prolonging the time required for registration.

### DB2014

Starting a Business: Afghanistan made starting a business easier by reducing the time and cost to obtain a business license and by eliminating the inspection of the premises of newly registered companies.

Getting Credit: Afghanistan strengthened its secured transactions system by implementing a unified collateral registry.

#### DB2012

**Getting Electricity:** Afghanistan made getting electricity easier by improving the efficiency of the electricity department in Kabul and introducing a new fee schedule for connections.

### DB2010

Starting a Business: Afghanistan simplified business start-up by taking company registration out of the commercial courts; establishing a new company registry that acts as a one-stop shop combining company registration, tax registration and publication in the official gazette; and introducing flat registration fees.

**Registering Property:** Afghanistan made registering property easier by reducing property transfer taxes.

**Getting Credit:** Afghanistan strengthened its secured transactions system through a new law broadening the range of assets that can be used as collateral (including future assets), allowing a general description of debts and obligations in a security agreement and permitting out-of-court enforcement of security interests.

## DB2008

**Registering Property:** Afghanistan made registering property easier by streamlining the process of obtaining approvals and by digitizing the title deed record systems of some district courts.

× Paying Taxes: Afghanistan made paying taxes more difficult for companies by increasing the payment frequency for business receipt taxes from annual to quarterly.

**Labor Market Regulation:** Afghanistan increased the maximum number of working days allowed per week and introduced a requirement for third-party approval for collective dismissals.

*Doing Business 2019* is the 16th in a series of annual reports investigating the regulations that enhance business activity and those that constrain it. The report provides quantitative indicators covering 11 areas of the business environment in 190 economies. The goal of the *Doing Business* series is to provide objective data for use by governments in designing sound business regulatory policies and to encourage research on the important dimensions of the regulatory environment for firms.
